

Centrifuge Module Rebuild Services

Standard Features

- Centrifuge Rebuild:
 - New Bearings
 - New Seals
 - Bowl Repairs
 - Complete Tool Kit
- New Control Panel with PLC and Optional Touch-screen Interface
- New Piping and Wiring
- New Pumps and Valves (as required)
- New Operating Water System
- Complete Documentation with Spare Parts List
- Repaint Module in One of Four Colors
- One Year Warranty on the System
- Runoff on Customer Supplied Fluid

Over time, even centrifuges that have been moderately to well maintained begin to show signs of wear. Paint gets scratched, dirt builds up and controls become outdated. However, the most expensive component, the centrifuge itself, lasts long after these physical signs of wear appear.

Before

After

That is why at IFS we offer a centrifuge module rebuild service. With over 10 years of experience building, servicing and repairing Alfa Laval centrifuge systems, we have the expertise necessary to take your old machine and make it look and work like new for a fraction of the cost of a new system.
