

Vacuum Dehydrator Rebuild Services

Standard Features

- Vacuum Dehydrator Rebuild:
 - New Hoses
 - New Dispersal Elements
 - Chamber Covers
 - New Gages
- New Control Panel with PLC and Touchscreen Interface (optional)
- New Piping and Wiring (as needed)
- New Pumps and Valves (as required)
- New Operating Water System
- Complete Documentation with Spare Parts List
- Repaint Module in One of Four Colors
- One Year Warranty on the System
- Run-off with Customer Supplied Fluid

Over time, even dehydrators that have been moderately to well maintained begin to show signs of wear. Hoses get frayed, dirt builds up and controls become outdated. However it is possible to update and restore most machines to excellent condition for a fraction of the cost of a new machine.

Before

After

At IFS we offer a dehydrator rebuild service. We can rebuild virtually any major brand of dehydrator, from Parker to Pall. Our technicians will replace all the critical components needed to make your machine work and look like new again.
